

Finesse Worktops by Kronodesign Guarantee

The reassurance of our 10 year guarantee

Finesse worktops by Kronodesign are the culmination of design-led research and development, offering exclusive decors.

All our worktops are inherently hygienic thanks to their built-in antibacterial qualities and are tested in accordance with ISO 22196:2011, the internationally recognised standard that evaluates antibacterial activity and the antibacterial properties of the surface.

Each Finesse worktop is covered for a period of ten years after installation by the guarantee provided by Kronospan. Under this guarantee, each worktop should be reasonably free of defects in manufacturing quality, allowing for the passing of time from original installation.

Kronospan will, at its own discretion, repair or replace any worktop that fails to conform to the limits of this guarantee.

This guarantee does not apply where:

- Any deterioration in the quality of the product is as expected through normal wear and tear.
- The product is altered or modified other than in accordance with reasonable instructions supplied with the product.
- The damage results from any installation, use, cleaning, maintaining or repairing of the product other than in accordance with:
 - i. specifications supplied with the product, or
 - ii. reasonable instructions supplied with the product.
- The damage results from exposure to abrasive or corrosive elements or substances.
- The damage results from any intentional, reckless or negligent act or omission of any person other than ourselves or our employees or agents, or from any act of God, or from any animal.
- The product is supplied or installed outside of the United Kingdom.

The worktop(s) and published installation guidelines should be checked carefully before installation commences as we cannot accept claims for worktops with defects that should have been noticed before installation or for incorrectly installed worktops.

Our tips and advice on caring for work surfaces should be adhered to after installation to ensure the product is correctly used and maintained, these can be found on our website **www.finesseworktops.co.uk**.
